PRODUCT INFORMATION

Catalog Number:	EC-32118-5		
Description:	Neuraminidase from Arthrobacter ureafaciens, 5U		
Synonyms:	Sialidase, Acylneuraminyl Hydrolase (EC 3.2.1.18)		
Lot Number:			
Package Size:	5 unit Neuraminidase / vial.		
Molecular Weight:	~ 52,000, 66,000 and 88,000 as de PAGE.	etermined by g	gel filtration and SDS-
pH:	Optimum between 4.5-5.5 using NAN-Lac as a substrate. Stable between 4.5-9.5.		
Thermal Stability:	Below 60°C at pH 5.0, 20 minutes.		
Specificity:	The α -ketosidic linkage of N-glycolylneuraminic acid (NGNA) will be hydrolyzed as well as that of NANA. This enzyme cleaves the $\alpha(2,3)$, $\alpha(2,6)$ and $\alpha(2,8)$ linkages of N-acetylneuraminic acid. Activity is independent of Ca ²⁺ and is not inhibited by EDTA, in contrast to <i>Vibrio</i> <i>cholerae</i> neuraminidase. Activity is not, or is only slightly, inhibited by monoiodoacetate, p-chloromecuribenzoate, and HgCl ₂ , which is in contrast to <i>Clostridium perfringens</i> neuraminidase.		
Purity:	The following enzyme activities are not detected:		
	α - and β -glucosidase α - and β -galactosidase α -mannosidase α -fucosidase Protease N-acetylneuraminic acid aldolase	N-acetyl α-4 N-acetyl α-4 N-acetyl β-4 N-acetyl β-4	glucodaminidase galactosaminidase mannosaminidase glucosaminidase galactosaminidase mannosaminidase
Unit Definition:	One unit will liberate 1 μ mole of N-acetylneuraminic acid per minute at pH 5.0, 37°C.		
Storage:	store lyophilized powder refrigerat		
Caution:	Refer to the enclosed MSDS for information regarding neuraminidase. The aluminum seals have sharp edges and the vial itself may have cracks which can cause lacerations. Use caution when opening the vial.

MATERIAL SAFETY DATA SHEET

Effective Date: March 31, 2006 Revision 5 Page 1 of 2

PRODUCT IDENTIFICATION

Name: Crude and purified protein and enzymes. Catalog Number (s): P-01, 2402, 2404, EC-32118-1, EC-32118S, EC-32118-5, E-34424, EC-34424, BA-000, BA-002, NP-01 to NP-05, B-1201 to B-4601, L-1102 to L-9000, AT-

2100 to AT-2701, AF-001 to AF-2354, AL-1104 to AL-4701,13-600 to 13-607, DM1011P to DM1064P. Formula: Complex polypeptides.

Synonyms: Protein A, Horseradish Peroxidase, Laminin (mouse), Neuraminidase, Bromekin, Avidin (egg white), Glycosylated Bovine Serum Albumin, Lectins, Secondary and Monoclonal Antibodies, other Antisera.

EMERGENCY INFORMATION

EY Laboratories Inc. 107 North Amphlett Blvd. San Mateo, CA 94401

EMERGENCY PHONE: 650-342-3296

HAZARDOUS COMPONENTS

Specific protein (s) as listed on the vial label. Solutions are at a concentration generally greater than 0.5mg protein / ml. Powders are generally greater than 95% specific protein unless otherwise indicated on the vial label or product information sheet. Biological activity of these proteins will vary. Although these materials are not generally considered to be hazardous they may cause allergic responses in sensitive individuals if inhaled or allowed to contact skin.

HEALTH HAZARD INFORMATION

EXPOSURE LIMITS:	None established. The toxicological properties of these products have not been thoroughly investigated. Care should be taken when handling any of
	these materials.
EFFECTS OF	Any of these proteins may cause acute localized eye, skin, or mucous
OVEREXPOSURE:	membrane irritation. Some sensitive individuals may develop a chronic
	allergic reaction with exposure.
ROUTES OF	Inhalation of powders and skin contact with liquids are the primary routes of
EXPOSURE:	exposure. Care should be taken to avoid the formation of aerosols when
	handling any of the solutions.

PHYSICAL CHARACTERISTICS

APPEARANCE: Powders may be white to amber brown in color. Solutions may be translucent to a clear brown Powders are completely soluble in many biological buffers. Some are soluble

SOLUBILITY:

(in water. All liquids are completely miscible in water and biological buffers

Not considered to be a fire hazard.

FIRE AND EXPLOSION MAZARDS EXTINGUISHING MEDIA:

Water spray or CO 2. SPECIAL FIRE FIGHTING PRECAUTIONS: None required.

NOTE: Most solutions contain 0.05% sodium azide as a preservative. Azide may react with lead and copper plumbing to form explosive metal azides. Flush with copious amounts of water when disposing material in the sink.

REACTIVITY DATA

STABILITY:	Stable. Decomposition products are not known to be
	hazardous.
HAZARDOUS POLYMERIZATION:	Will NOT occur.
INCOMPATIBILITY:	None known. (Lead and copper may react with sodium
	azide).

SPILL / LEAK PROCEDURES

MATERIAL RELEASE / SPILL:	Avoid contact with powder or liquid. Clean up spill with a paper towel soaked in household bleach. Do not allow solutions to dry on environmental surfaces. Wash affected area with detergent after the area has been treated with bleach.	
WASTE DISPOSAL:	Incinerate, autoclave, or dispose of paper waste in accordance with all Local, State, and Federal regulations. Due to the small quantities of material involved these products are generally not considered to be environmental hazards. All of these proteins are fully biodegradable.	

EMERGENCY FIRST AID PROCEDURES

May be harmful if swallowed, inhaled, or allowed to absorb through the skin. Wash contacted area with water for 15 minutes. If inhaled remove to fresh air, Report exposure to the appropriate safety official. Consult a physician if irritation occurs or if there is any indication of an allergic response such as watering eyes, sneezing, or difficulty breathing

SPECIAL HANDLING PRECAUTIONS

VENTILATION:	No special ventilation is required but it is recommended to handle these
	reagents in a fume hood when possible.
EYE PROTECTION:	Not required under most circumstances but recommended as a safety
	precaution.
RESPIRATORY	Recommended as a safety precaution, specifically when working with
PROTECTION:	powders. An approved respirator may be required for those individuals
	already known to be sensitive to these materials.
PROTECTIVE GLOVES:	Required when handling any of these materials.

SPECIAL PRECAUTIONS

This material is for research and experimental application only. It is not intended for food, drug, household, agricultural, or cosmetic use. All materials should be handled only by technically qualified individuals experienced with working with potentially hazardous chemicals. The above information is correct to the best of our knowledge. The user should make independent decisions regarding completeness of the information, based on all sources available. EY Laboratories, Inc. shall not be held liable for any damage resulting from handling or contact with the above product.
