PRODUCT INFORMATION Alkaline Phosphatase Labeled Lectins

	Alkaline P	Phosphatase Enzyme Activity Assay
	Chemical Principle:	En Orthophosphoric Monoester + H ₂ 0 \rightarrow Alcohol + H ₃ PO ₄
Winged	Assay Reagents:	BUFFER: 0.1 M Tris buffer, pH 8.2. ENZYME: Dilute with 0.1 M Tris Buffer. Acceptable dilution: 5-20 µg/ml. SUBSTRATE: 0.001 M p-nitrophenylphosphate (P-NPP).
	Procedure:	1. Add 2.9 ml substrate to Reaction test tube and 2.9 ml to Control test tube.
		 At time = 0, add 100µl of diluted ENZYME to Reaction tube and 100µl Tris to Control tube. Mix thoroughly.
		 Measure and record optical density at 410 nm OD(410) every 15 seconds for 3 minutes, or take end point reading after 3 minutes by stopping reaction with 100µl of 5.0 M NaOH.
GalNAc		4. Use the OD(410) measurement to determine the rate of change in absorbance per minute.
ies. Less Ills. Less S.	Enzyme Activity Calculations:	One unit of activity is the amount of enzyme to decompose 1 μ mole of P-NPP/minute at 25°C. 1.62 X 10 ⁴ cm ⁻¹ is the molar absorbance of P-NPP.
		OD(410) / min = OD(410) / 3min - OD(410) Control / 3 minutes 3 minutes
REEZE!		mg enzyme / ml reaction mixture = $\frac{[enzyme dilution]}{30}$
perated in		units / mg = $\frac{OD(410) / min}{1.62 \times 10^4 ml reaction mixture}$

PRODUCT INFORMATION

LI LABORATORIES, INC.

107 North Amphlett Blvd. San Mateo, CA 94401

MATERIAL SAFETY DATA SHEET

Effective Date: March 31, 2006 Revision 4 Page 1 of 2

PRODUCT IDENTIFICATION

- Name: Purified proteins or biotin labeled with Horseradish Peroxidase or Alkaline Phosphatase.
- Catalog HP-02, BA-104, BA-105, BA-108, BA-109, H-1102 to H-9000, LA-1104 to LA-Number (s): 9000, PA-2100 to PA-2701, AA-2100 to AA-2701, HAF-001 to HAF-2354, AAF-001 to AAF-2354, HA-01 to HA-013, AA-01 to AA-013, HAL-1104 to HAL-4701, AAL-1104 to AAL-4701.
- Synonyms: Protein A, Avidin (egg white), Biotin, Lectins, Secondary Antibodies labeled with Horseradish Peroxidase or Alkaline Phosphatase.

EMERGENCY INFORMATION

EY Laboratories, Inc. 107 North Amphlett Blvd. San Mateo, CA 94401 EMERGENCY PHONE: 650 342 3296

HAZARDOUS COMPONENTS

Specific protein(s) as listed on the vial label. Solutions are at a concentration generally greater than 0.5mg protein/ml. Biological activity of these labeled proteins will vary. Horseradish Peroxidase and Alkaline Phosphatase are both potent enzymes which may be harmful if ingested, inhaled, or allowed to absorb through the skin. Both enzymes are known to cause allergic responses in sensitive individuals.

HEALTH HAZARD INFORMATION

EXPOSURE LIMITS:	None established. The toxicological properties of these products have not been thoroughly investigated. Care should be taken when handling any of
	these materials.
EFFECTS OF	May causes localized eye, skin, or mucous membrane irritation. Some
OVEREXPOSURE:	sensitive individuals may develop a chronic allergic reaction with exposure.
ROUTES OF	Inhalation of powders and skin contact with liquids are the primary routes
EXPOSURE:	of exposure. Care should be taken to avoid the formation of aerosols when
	handling any of the solutions.

PHYSICAL CHARACTERISTICS APPEARANCE: Powde

SOLUBILITY:

 All liquids are completely miscible in water and biological buffers.

 FIRE AND EXPLOSION HAZARDS
 Not considered to be a fire hazard.

Powders are completely soluble in many biological buffers and water.

Powders are a light brown. Solutions will be light to dark brown.

EXTINGUISHING MEDIA: SPECIAL FIRE FIGHTING PRECAUTIONS: NOTE: Water spray or CO₂. None required. Alkaline Phosphatase conjugates contain less than 0.05%

sodium azide as a preservative. Azide may react with lead and copper plumbing to form explosive metal azides. Flush with copious amounts of water when disposing material in the sink. MSDS for Horseradish or Alkaline Phosphatase Labeled Proteins & Biotin Continued - page 2 of 2.

REACTIVITY DATA

STABILITY:	Stable. The nature of any decomposition products are
HAZARDOUS POLYMERIZATION: INCOMPATIBILITY:	not known. They are not believed to be hazardous. Will NOT occur. None known. (Lead and copper may react with sodium azide).

SPILL / LEAK PROCEDURES

MATERIAL RELEASE / SPILL:	Avoid contact with powder or liquid. Clean up spill with a paper tow soaked in household bleach. Do not allow solutions to dry environmental surfaces. Wash affected area with detergent after the ar	
WASTE DISPOSAL:	has been treated with bleach. Incinerate, autoclave, or dispose of paper waste in accordance with all	
	Local, State, and Federal regulations. Due to the small quantities of material involved these products are generally not considered to be environmental hazards. All of these proteins are fully biodegradable.	

EMERGENCY FIRST AID PROCEDURES

May be harmful if swallowed, inhaled, or allowed to absorb through the skin. Wash contacted area with water for 15 minutes. If inhaled remove to fresh air. Report exposure to the appropriate safety official. Consult a physician if irritation occurs or if there is any indication of an allergic response, such as watering eyes, sneezing, or difficulty breathing. Any eye contact should be reported to a physician immediately

SPECIAL HANDLING PRECAUTIONS

VENTILATION:	No special ventilation is required but it is recommended to
	handle these reagents in a fume hood when possible.
EYE PROTECTION:	Required. Goggles or safety glasses with a side shield are
	recommended.
RESPIRATORY PROTECTION:	Recommended as a safety precaution, specifically when
	working with powders. An approved respirator may be
	required for those individuals already known to be
	sensitive to these materials.
PROTECTIVE GLOVES:	Required when handling any of these materials.

SPECIAL PRECAUTIONS

This material is for research and experimental application only. It is not intended for food, drug, household, agricultural, or cosmetic use. All materials should be handled only by technically qualified individuals experienced with working with potentially hazardous chemicals. The above information is correct to the best of our knowledge. The user should make independent decisions regarding completeness of the information, based on all sources available. EY Laboratories, Inc. shall not be held liable for any damage resulting from handling or contact with the above product.
